LAGOON

LAGOON 39

LARGELY BASED ON THE LAGOON 52, THE NEWLY RELEASED DESIGNS AND DRAWINGS FOR THE LAGOON 39 IMMEDIATELY SHOWS HER AFFILIATION TO THE NEW GENERATION OF LAGOONS. Her contemporary look with vertical, bevelled bows and aerial cabin top above the deck also offers masses of comfortable space with a smartly arranged saloon and cockpit area. The new boat completes the Lagoon range perfectly and fits well between the indefatigable Lagoon 380 and the new S2 version of the Lagoon 400.

The Lagoon 39 will have trendy elegant hulls and a wide sleek deck. Circulation is easy from the modern vertical bows all the way aft. The wide transoms offer an ideal access to the sea.

All maneuvering is controlled from the helm station, thus keeping the deck and cockpit clear for guests and family. The skipper enjoys easy handling thanks to Lagoon's new innovative sail plan.

The cockpit serves as a reference in terms of comfort. The sitting area welcomes one around a large dining table, well protected from the sun thanks to the broad cabin top. A wide transversal access then leads onto the saloon.

For a boat of less than 40', the large saloon area with the fully equipped L-shape galley provides sufficient space for dinner parties and holidays on board. The 360-degree window design allows ample natural light in and this helps emphasise the volume of the saloon.

The Lagoon 39 innovates with the offer of a luxurious two-cabin version, where each hull is designed as a private owner's suite with a king size bed, a sofa, an office space and a spacious en-suite bathroom.
